Gorbachev Suspends Deployment of SS-20s

By Seth Mydans

MOSCOW - Mikhail S. Gorbachev announced Sunday that the Soviet Union was freezing deployment of medium-range SS-20 missiles in Europe until November.

[The Reagan administration swiftly rejected Mr. Gorbachev's statement and called on Moscow to negotiate significant reductions at arms talks in Geneva, Reuters reported from Santa Barbara, Cali-

["At first blush, Mr. Gorbachev's statement seems to revive previous Soviet offers designed to freeze in place a considerable Soviet advantage," the White House spokesman, Larry Speakes, said]. Making his first major statement on foreign affairs since becoming

Communist Party general secretary last month, Mr. Gorbachev also confirmed that he had responded positively to an invitation to a summit meeting with President Ronald

His remarks were in answer to sestions by the Communist Party daily Pravda. The interview was to be printed in the Monday edition of the newspaper.

The interview came as the speaker of the House of Representatives. Thomas P. O'Neill, a Democrat of Massachusetts, arrived in Moscow at the head of a congressional delegation that was expected to meet with Mr. Gorbachev later in the

Mr. Gorbachev said he did not believe that confrontation was the natural state of relations between

is rather an anomaly. There is no inevitability at all of its continua-

tion. We regard the improvement

of Soviet-American relations not

only as an extremely necessary but

The Soviet leader said he had

corresponded with Mr. Reagan

about the possibility of a summit

meeting and that "I can say a posi-

tive attitude to such a meeting be-

ing held was expressed from both

sides." Mr. Reagan said last week

that he had received a positive re-

ply to the suggestion that the two

also as as a possible matter.

possibility has been raised that the two leaders could meet in Septem-ber if Mr. Gorbachev attends the opening session in New York of the United Nations General Assembly. Mr. Gorbachev said his correspondence with the American president also dealt with ways of improving relations and making them

more stable and constructive. "I am convinced that a serious impulse should be given to Soviet-American relations at a high politi-

cal level," he said. He characterized ties between Moscow and Washington as tense and as giving some cause for alarm. But he said possibilities for im-

provement existed and "these possibilities should not be missed. As an impulse to achieving a breakthrough in relations, Mr. Gorbachev voiced support for moratoriums on space and strategic arms and announced the Soviet freeze on deployment of intermedi-

ate-range missiles in Europe. "We are for an honest dialogue. We are prepared to demonstrate

our good will again," he said.
"And starting with this day, and I want to emphasize this, the Soviet Union is introducing a moratorium on the deployment of its intermedi-ate-range missiles in Europe," he

He said the moratorium would hold until November. "The decision we will make after that depends on whether the United States follows our example: Will it stop or not the deployment of its intermediate-range missiles in Europe?

Shultz on Soviet Ties Earlier, Gary Lee of The Washington Post reported from Washing-

Secretary of State George P. Shultz has outlined a strategy for insulating U.S.-Soviet relations against what he called Soviet "out-

His proposals, published Saturday in the journal Foreign Affairs, grew out of events surrounding the Soviet shooting down of a civilian South Korean airliner in September 1983, according to aides familiar with his thinking.

More fundamentally, the pro-

posals reflect a shift in Reagan administration thinking toward a less confrontational approach toward

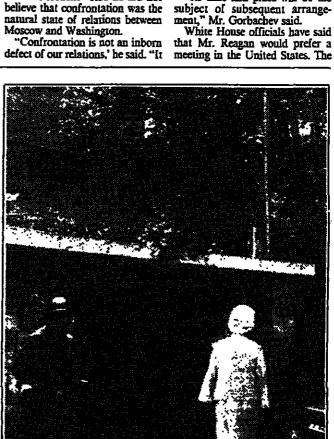

Underscoring this change, Mr. Shultz also said that he saw in the accession of Mr. Gorbachev, "a fresh opportunity" for the two superpowers to explore "more constructive possibilities."

The U.S. response to the slaving of a U.S. Army major by a Soviet officer last month demonstrated a State Department policy of pursuing a strategy geared to overall U.S. goals and interests in the face of events that might otherwise negatively affect U.S.-Soviet ties, aides to Mr. Shultz said.

They said the shooting of Major Arthur D. Nicholson Jr., which occurred after the magazine article was written, was the kind of incident Mr. Shultz had in mind in

developing the strategy.

After the killing on March 24, the administration agreed that questions surrounding it should be resolved in a meeting between the commander of U.S. forces in Europe and the commander of Soviet

forces in East Germany. U.S. Reports Northeast's Population, Surprisingly, Now Not Down but Up

By William K. Stevens New York Times Service

the 1970s appear to have been re-

Some experts cautiously interpret this development, indicated in not uniform," said Samuel Ehren- the rest of this century, declining recent data from two authoritative halt, the regional commissioner of government sources, as evidence that the Northeast has reached an equilibrium in population and may have turned the corner in its painful shift from an industrial to a postindustrial economy.

New England, some of the experts say, turned that corner earlier. What has made the difference in the Northeast as a whole since 1980, they say, is that the Middle Atlantic subregion, with New York at its heart, has somewhat unexpectedly followed suit.

The Middle Atlantic's resurgence, these authorities say, reflects in part New York City's transition from an economy with a strong emphasis on manufacturing to an economy based more solidly on the flow of information, on small business and retail trade and on the city's traditional position as an international center of finance and creative activity.

The Northeast still is losing population to the South and West, as it did in the late 1970s when hundreds of thousands of job-seekers fled the region's shrinking economy for greener pastures elsewhere. But now the migration from the Northeast to the South and West is

markedly less than it was five years government considers the Northago, and the flow in the other direc- east to be New England and the PHILADELPHIA - Despite tion is a bit more. At the same time, three Middle Atlantic states of earlier forecasts to the contrary, the birth rates have risen somewhat. Heart Patient Moves Out Of Hospital By Lawrence K. Altman

New York Times Service
LOUISVILLE, Kentucky — William J. Schroeder has become the first person to live outside a hospital with an artificial heart.

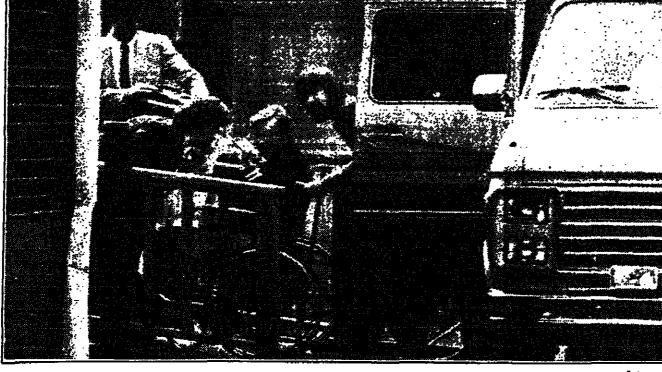

The 53-year-old retired federal worker, admitted Nov. 11 to Humana Hospital Audubon, was released Saturday. It was his 133d day with an artificial beart, a period longer than any previous recipi-

Mr. Schroeder moved across the street to a specially equipped, 800square-foot (74-square-meter) apartment where he and his wife, Margaret, will live. Mr. Schroeder, who will continue his recuperation from the artificial heart experiment as an outpatient, remains severely impaired because of a stroke suf-

The move is an important measure of the success of the artificial beart experiment, since most prospective recipients of such a device might hesitate if they knew they had to live in a hospital the rest of their lives. It will also provide a better test of the quality of life with the device, which is made of plastic and metal.

Mrs. Schroeder said at a news conference before the move. 'We're going home in a sense not our home, but we've lived in the air force for years, and home was wherever we were at."

One of Mr. Schroeder's sons, Mel, pushed him out of the hospital

By David B. Ottaway

WASHINGTON - The United States has submitted its own compromise plan for the withdrawal of Cuban troops from Angola in an effort to break the deadlock between South Africa and Angola over the troops' presence.

A senior administration official said it was the first time Washington had presented its own proposals to break the deadlock over the Cuban issue. He said the more activist U.S. diplomacy represented a "major new step" by the Reagan administration to get an agree-ment, and that it had been approved at the highest levels.

The official said the timetable

ing a visit to the region in mid-March by Chester A. Crocker, the ed States have been demanding the range for the independence of the South African-administered territory of South-West Africa, or Na-Africa and Angola

In the past, the United States has sought to work out agreement between the conflicting positions of the two governments rather than present its own plan in the search for an overall regional peace settle-ment that would including the holding of United Nations-super-

assistant secretary of state for Afri-departure of the Cubans, and the can affairs, who has been heading issue has become the main hurdle the U.S. mediation effort to ar- to carrying out a United Nations plan approved in 1978 for Namibian independence.

The official also said the plan mibia, which lies between South reflected a realization that the United States would have to become more directly involved in the negotiating process if any agreement were to be reached, because South Africa and Angola were still far apart on the timing and extent of a Cuban troop withdrawal.

South Africa wants all Cuban troops to withdraw almost immedivised elections in Namibia, the ately upon the start of the seven-pullout of South African troops month election procedure in Nathere, and the withdrawal of about mibia. Angola announced last

Both South Africa and the Unit-i States have been demanding the all, of the Cubans, as part of an departure. all, of the Cubans, as part of an overall Namibia settlement

> Complicating the Cuban issue is the breakdown of a U.S.-arranged agreement in Lusaka, Zambia, in February 1984 under which South African would withdraw all the troops it sent into Angola to curb incursions of Namibian nationalist guerrillas based there. The South African forces halted their with-drawal about 25 miles (40 kilometers) from the Namibian border.

U.S. officials refused to disclose details of the proposed U.S. compromise. But it was understood to support the South African objective of getting all Cuban troops out of Angola through a phased withdrawal. This would allow the Anwas submitted to the two sides dur25,000 Cuban troops from Angola. November its agreement to the degolan government time to adjust to two sides going," he added.

State Department officials said

that Washington had sought unsuccessfully for the past four months to extract "ideas" for a compromise from the South African and Angolan governments.

"After four months of trying to elicit ideas, we decided to come up with our own ideas," an official

He said the U.S. plan was a "syn- ■ Rebels Claim Success thesis paper" and represented an extrapolation from the declared Angolan and South African positions on the Cubans and amounted to "an outline of what an agreement might look like."

"It represents where we see the

The officials said the U.S. plan took no position on another issue the Angolans consider delicate: the possible formation of a coalition overnment in Luanda that includes the opposition National Union for the Total Independence of Angola, or UNITA. The group has been carrying on a guerrilla war against the central government since Angola's independence in

UNITA said its guerrilla forces rilled 156 government troops and a Cuban soldier in recent fighting, The Associated Press reported from Lisbon. UNITA said eight of its forces were killed, 32 were wounded and one was missing in the fighting.

WORLD BRIEFS

UN Chief Visits Tehran to Discuss War TEHRAN (Reuters) - The United Nations secretary-general Javier Pérez de Cuellar, arrived Sunday saying that he wanted only to discuss Iran's position on its war with Iraq, rather than to offer specific proposals

on ending the conflict.

Mr. Perez de Cuellar, who plans to visit Baghdad later in the week said last week during a tour of Saudi Arabia, Oman. Bahrain and Qatar that

he would visit the capitals of the warring countries only if he could discuss all aspects of the four-and-a-half-year conflict.

But the diplomat apparently changed his mind and decided to visit.

Tehran and Baghdad anyway after meeting in Doha, Qatar, with envoys from Iran and Iraq. He had indicated earlier that Iran was blocking the visit by refusing to discuss all aspects of the war.

Christian Units Shell Center of Sidon

SIDON, Lebanon (Reuters) - Christian militiamen shelled the center of the southern Lebanese port of Sidon on Sunday, residents said, after heavy overnight fighting against Moslem forces in which four persons were wounded.

The Christian Voice of Lebanon, a rightist radio station, said two Christian areas east of Sidon also came under rocket and artillery attack.

Meanwhile, sources said about 100 Christian leaders, including former presidents, politicians and militia chiefs, will meet Tuesday to discuss a political crisis involving Syria's role in Lebanon that has split the Christian community.

Libyan Exile Killed in West Germany

BONN (NYT) — Gebril Denali, an exiled opponent of Colonel Moamer Qadhafi, the Libyan leader, was shot and killed Saturday by a Libyan guaman on a crowded Bonn street.

A police spokesman identified the gunman only as Fatahi T., a 29-year-old Libyan national. The spokesman said the man was apprehended, with a pistol still in his hand, by an off-duty policeman soon after the shooting. A West German woman was seriously wounded in the stomach, and a male passer-by was grazed by a bullet, the spokesman said, adding that Mr. Denali, 30, had been shot in the head several times and had died of his wounds in a hospital.

The slaying of Mr. Denali, who was seeking political asylum in West Germany, was the latest in a series of killings involving political opponents of the Libyan leader, and the second one in Bonn.

U.S. Crime Rate Fell 4.5% Last Year

WASHINGTON (AP) — A government survey shows overall crime in the United States fell 4.5 percent last year, but there was no drop in the rate of such violent crimes as rape, robbery and assault, the Justice Department said Sunday.

The National Crime Survey, which measures crimes not reported to police as well as those reported, also showed that the rate of household burglaries and larcenies fell to the lowest level in the 12 years of the survey's existence.

The crime survey is based on interviews with a national sample of more than 125,000 people. Based on the preliminary figures for 1984, there were 35.3 million "victimizations" compared with 37 million a year earlier, the Bureau of Justice Statistics said.

For the Record

Union Carbide Corp. will resume production of methyl isocyanate within two weeks at its West Virginia plant, the company said. It halted production after a leak of the chemical from a plant in India killed more

than 2,000 people.

John Lawn, 49, will be nominated to head the U.S. Drug Enforcement Administration, replacing Francis M. Mullen Jr., President Ronald (UPI) Reagan announced. Mr. Lawn is now acting director. Henry G. Cisneros, the mayor of San Antonio, Texas, defeated five challengers overwhelmingly to win a third term Saturday. (AP)

President-elect Tancredo Neves of Brazil is suffering from a lung inflammation, his doctors said after a sophisticated X-ray examination, but will not require additional surgery for intestinal problems. Mr. Neves 75, was described Sunday as being in good condition.

Thirty-seven persons died when a bus carrying about 45 people plunged into a reservoir in western Yugoslavia on Saturday, police said. Most of the passengers were building workers returning home to the town of Mostar from work in Sarajevo.

Thousands in West Germany Protest U.S. Nuclear Policy

MUTLANGEN. West Germany — Thousands of people demon-strated Sunday throughout West Germany against President Ronald Reagan's Space Defense Initiative and the deployment of U.S. nuclear

weapons in the country. A spokesman for the peace movement said that at least 20,000 people took part in dozens of dem

onstrations and rallies Sunday in every state, many of them at U.S., West German and allied military installations.

At the U.S. Pershing-2 missile base Mutlangen east of Stuttgart, more than 200 people staged a to-ken blockade of the main gate and 12 protesters got through a net of barbed wire and entered the facility. Police chased the demonstrators out but witnesses said that at least two were detained.

The protesters framed the main ate with a banner saying "Freedom through Pershings," a parody of the "Freedom through Work" signs mounted over the gates of Nazi concentration and extermination camps before and during World War II.

Elsewhere, police said that about 2,200 people demonstrated on the Baltic coast in Kiel, Lübeck and Flensburg, all of which have important West German and NATO na-

The traditional Easter peace demonstrations were organized by trade union, church, student and opposition political groups. On Saturday, Friedrich Zimmermann, the interior minister, charged that Communists had

played an unprecedented role in organizing the protests.
In Molesworth, England, demonstrators gathered in rain and sleet outside a planned cruise mis-

sile base Sunday to protest deployment of nuclear arms in Britain. The Campaign for Nuclear Disarmament said it expected 20,000 people to attend two days of dem-

Five in Egypt Sentenced To Be Hanged for Rape

CAIRO - An Egyptian count has sentenced five men to hang for raping an 18-year-old woman, the Egyptian Middle East News Agency has reported. A sixth man was sentenced to seven years of hard

and of all nations, big or small."

"sanity and reason will take over during the Easter recess. The U.S.-Japan relationship, he said, "is too important to be disrupted by a wave of emotionalism."

"The relationship is too valuable, too strong, too precious to let differences of the moment create a situation which we will be sorry for in the future," he said.

made the scapegoat" for the U.S. merchandise trade deficit last year of \$123.3 billion, nearly \$37 billion of which resulted from trade with Japan. Mansfield urged Congress and the administration to work together to solve the country's own economic problems — the overvalued dollar, high interest rates and rising budget deficits — that bear the major responsibility for the trade deficit.

our thing here."
But Mr. Mansfield, 82, who had

been a Democratic senator from Montana for 25 years, said that strong attacks on Japanese trade practices by legislators who have been noted for their free-trade attitudes, such as Senator John H. Chafee, a Republican of Rhode Island, helped speed the trade talks. He said that Mr. Chafee's introduction of a bill that would but Japanese telecommunications products from the United States if American companies did not get equal access in Japan was "the

straw that broke the camel's back" during the Tokyo negotiations. "It probably had a large part to play in bringing the negotiations to a successful conclusion," Mr.

Mr. Mansfield said Prime Minis-

For Mubarak, Harboring of Nimeiri Could Damage Relations With Sudan

By David Lamb

Los Angeles Times Service CAIRO - For more than a year, Egypt has viewed the behavior of Gaafar Nimeiri as eccentric and his political longevity in Sudan as a liability, but the neighboring countries are linked by their mutual dependence on the River Nile and the closest alliance in the Arab world.

So when Major General Nimeiri's white Boeing 707 jetliner touched down in Cairo on Saturday, carrying the Sudanese president en route to Khartoum from Washington, President Hosni Mubarak of Egypt was at the airport to greet — and perhaps counsel — the man whose country's stability has He affirmed that Egypt stands solalways been crucial to Egypt's own well-being.

General Nimeiri talked quietly as he and Mr. Mubarak walked into the presidential airport lounge for two hours of private discus-sions. There Mr. Mubarak con-firmed the news, broadcast from meiri had aligned himself with Khartoum by way of Nairobi only minutes before, that the Sudanese armed forces had taken power and ended General Nimein's 16-year

According to highly placed Egyptian sources, General Nimeiri was determined to return to Khartoum anyway. He strode to his plane and for five minutes he and Mr. Mubarak stood at the ramp, with Mr. Mubarak finally persuading him that it was too dangerous

diplomatic ties when Egypt made mands in the name of General Ni-peace with Israel in 1979. main or the name of the people, and they choose the latter.

General Swareddahab is well known to Cairo anthorities. He traveled here often as army com-mander in chief, the post he held before General Nimeiri placed him in charge of all of the armed forces as defense minister March 18. He is described as a low-profile soldier place else. In a way this can work to with no apparent political ambitions. "He has never been a star

Egypt's uneasiness with General Nimeiri, though never publicly spoken, was well known over the past year. As General Nimeiri's situation began unraveling in the face of internal economic and political woes, Mr. Mubarak went on record saying that he would help protect the Nimeri regime militarily in case of foreign intervention — a reference to Libya — but would not interfere in internal unrest.

In his statement Sunday, Mr. Abdel Meguid reiterated Egypt's willingness to aid Sudan militarily, saying: "Egypt warns once again against any aggression against the Sudanese people or interference in its internal affairs or a violation of its sovereignty and rights, and asserts its determination to uphold its commitments to this dear nation."

Although never publicized, Egypt has a training center for army officers and an air force presence in the Sudan. The two countries are joined by a 25-year defense The Egyptian intelligence read-pact, signed in 1976, and an agreelish good working relations with ing — which is usually accurate in ment for economic integration, the new Sudanese regime, yet harSudanese affairs — is that the coup signed in 1982. AMERICAN TOPICS

Women's Colleges Adapt and Survive

A survey by the Women's College Coalition shows that, of 5,000 women's college alumnae of 1967-1977, 71 percent said they would go to the same institution if they were starting over, and 58 percent said they would encourage their daughters to attend a women's college.

There were 142 women's colleges in the early 1970s, when men's colleges started admitting women and prominent women's schools like Vassar and Skidmore began admitting-men. Today, 110 colleges exclusively for women have survived, with 110,000 undergraduates, or 2 percent of female college students. Enrollment at women's colleges is actually up 25 percent in the past decade.

"There are whole new fields opening to women, so obviously women's colleges had to ex-pand their offerings," says Rhoda Dorsey, president of Goucher College in Towson, Maryland, which now has courses in management, public affairs and communications. Randolph-Macon Woman's College in Lynchburg, Virginia

offers computer sciences and business administration. Nanneri O. Keohane, president of Wellesley College in Wellesley, Massachusetts, says, "We have a very important and validated mission in preparing women, and we have a pretty good sense of how to do it

Congress Using Foreign Aid as Leverage to Influence Policy

By Steven V. Roberts New York Times Service

WASHINGTON - The House Foreign Affairs Committee decided last week that an aid program for the Upper Hualiaga Valley in Peru could go forward only after the Agency for International Development determined that cultivation of coca leaves, the raw

material for cocaine, had been reduced in the valley. Aid to Paraguay, said the panel, would be halted until a "good faith effort" had been made to determine the whereabouts of Josef Mengele, a Nazi doctor reported to be hiding out in that country. Jordan could not purchase sophisticated American

weaponry under the bill until the president certified that Amman was "publicly committed to the recogni-tion of Israel" and ready to enter peace negotiations. These are only three of the dozens of clauses, conditions and constraints contained in the 121-page, \$14.5-billion foreign aid bill adopted by the commit-

tee. They are another demonstration of the determination of Congress to influence foreign policy. "We feel this is our one chance to express our views Foreign Affairs Committee. "Some people would ac- aid program."

fice 10 months ago.

The growing tendency of Congress to encumber foreign aid bills with all sorts of restrictions and provisos has caused the legislation to stall in recent years. No authorization bill has become law since 1981, leaving the foreign aid program to be financed through catchall spending bills known as continuing resolutions under which Congress cannot specify where and how most aid is spent.

Senator Richard G. Lugar, Republican of Indiana and chairman of the Senate Foreign Relations Committee, said he was encouraged by the "spirit of comity" that marked his committee's drafting sessions on the foreign aid bill last week.

He expressed "some optimism" that this year the bill would go through. But it still has problems. "There is a danger that we get too detailed," warned

Senator Daniel J. Evans, Republican of Washington. "As a fundamental policy we ought to be working on on a number of issues," said Representative Howard the major thrusts of foreign policy. Sometimes we L. Berman, Democrat of California, who is on the spend too much time and effort on micromanaging the

cuse us of micromanagement, but that stems from our frustration. This is the only vehicle on which we can do anything. Otherwise it's all talk."

Congressional activism on foreign aid reflects the fact that more and more senators and representatives want to have a say. "One hundred senators all have foreign policy interests now," noted Mr. Lugar, "and consensus and a low degree of trust between the foreign policy interests now," noted Mr. Lugar, "and they feel they ought to play a role."

The foreign policy committees have also attracted lawmakers with strongly held views on particular issues. For example, a number of Jewish members sought places on the House panel in part because of a deep interest in Israel.

Since joining the committee this year Representative Christopher H. Smith, Republican of New Jersey,

has concentrated on pressing his anti-abortion views. With the Democrats controlling the House and the Republicans in charge of the Senate and the White House, the Democrats have tried to use the foreign aid bill to influence government actions.

"Democrats here don't feel that we have enough ability to quietly convince the administration of our concerns," said Mr. Berman. "So this becomes our

Strike by Civilian Crew Confirmed by U.S. Navy

By Fred Hiatt and Rick Atkinson

Washington Post Service
WASHINGTON — A U.S. Navy ship headed toward an exercise in the Indian Ocean was delayed for 11 days last fall when its

civilian captain and deck officers went on strike, navy officials have The SS Mormac Star, a tanker, is one of a growing number of ships owned or leased by the navy but operated by civilian crews. Nine other ships were affected when the International Organization of Masters, Mates and Pilots called a strike Oct. 3, although none was delayed as long as the Mormac Star, Lieutenant Dave Morris of

the navy said last week in response The navy is growing increasingly dependent on civilian crews as it expands toward the Reagan administration's goal of a 600-ship fleet. Civilians now operate 123 navy

ships, up from 78 four years ago. These include supply, repair and submarine-tracking vessels.
"We have a limited field of people to operate our ships," Everett

Pyatt, the assistant secretary of the navy for shipbuilding and logistics,

told a congressional subcommittee last year. Naval officials said civilian crews on submarine-trackers would not present problems in wartime.

"There is no contingency plan to replace civilian crews and technicians with military personnel, nor is one deemed necessary," the House Appropriations subcommittee on defense was told.

Transport Li Stamford, Connecticut, and is leased to the navy to deliver fresh water to an Indian Ocean flotilla that carries "prepositioned" weap ons and equipment for the Rapid Deployment Force. Last October, when the ship was upposed to sail from the naval

base on the Indian Ocean island of Diego Garcia, three unions repre-sented different members of the crew: the Masters, Mates and Pilots union, for officers; the Marine Engineers Beneficial Association for engineers, and the National Maritime Union, for seamen.

But Moore McCormack and four other shipping lines had de-clined to renew their contracts with the officers' union and the union called a strike.

Burton M. Epstein, general

counsel for the 12,000-member Masters union in Linthicum, Mary-land, said: "It was the action of the company which precipitated the incident. If you're told" that the union members are "no longer members of the pension plan, that your wages are reduced, you can choose to continue working or you can ask to be relieved."

The company sent replacements to the base, but the striking officers prevailed on the new crew to join the strike, company officials said. By the time a second crew could

reach the island, 11 days had The nine other ships affected by the strike found replacement crews soon enough to meet sailing dates, or met their schedules by steaming faster than planned after leaving

port, Lieutenant Morris said. Most of the vessels were oilers. The navy is building a dozen submarine-tracking ships that will be manned by union seamen and contract technicians. The ships are to cost \$39 million, including an extra \$1.75 million for each "to incorporate single-man state-

rooms" as union crews demand,

navy officials said.

The unions contend that they operate such ships more cheaply because they use fewer sailors than the navy and because of the high retirement costs for navy sailors.

Get Diplomacy Working

Notwithstanding the Sandinists' quick and defiant rejection of it, President Reagan's new Nicaragua plan is a step forward in one important respect: It points a way to suspension of the war for at least two months in order to give negotiations a better chance.

The regime in Managua refused to accept the basic terms of the Reagan offer — a cease-fire and talks with the resistance — when the resistance put them forward on March 1. But now the official U.S. weight is behind those terms. And with Colombia's president pronouncing the new plan "positive," Mr. Reagan has some basis for asserting that "we'll have the support of the Contadoras" — the Latin democracies that have been trying to mediate.

Mr. Reagan does not dispute that it was congressional opposition to funding the "contras" that led him to his new plan. It reflects his still intense and lopsided focus on keeping them in the field. He insists that the Sandinists will not negotiate unless Congress releases \$14 million for nonmilitary needs of the "contras" right away and leaves him free to fill their military needs if talks do not pan out soon. For this he is being widely accused, by the Sandinists and others, of demanding unreasonably that Managua negotiate with a gun at its head This is so, although, given the Sandinists' treatment of their opposition, it is not farfetched for Mr. Reagan to fear getting trapped in a situation where talks drag on and on.

The more relevant question remains what will best move the Sandinists toward respect for their neighbors and - much the more difficult and controversial goal — toward re-conciliation with fellow Nicaraguans. The Nicaraguan resistance has some notably democratic elements. But the three-year record of this U.S.-backed insurgency does not build confidence in its utility as a bargaining lever. It has given the Sandinists the high ground of guan nationalism, undercut mediation by the Latin democracies and kept Mr. Reagan

fighting a costly uphill battle at home. It needs to be underlined that the reluctance

of many Americans to support the "contras" militarily comes not from favor for the Sandinists but from an objection to reliance on military intervention in Central America. That the Sandinists also object to intervention does not make it more palatable. The element that the Contadora group is encouraging in U.S. policy is not the threat of a return to intervention in 60 days — this runs counter to the Contadora charter - but the possibility of a

wider ambit for the group's own diplomacy.

It would be a waste if all Mr. Reagan's new plan produced were a hotter argument over the "contras." Believers and skeptics alike ought to try to profit from the fact that he offers a new way to put together a military policy and the pursuit of a political settlement. He has reshuffled some of the cards. Perhaps more of them can be reshuffled at the same time.

The prime requirement is an intense com-

mon effort to get a prompt and unconditional cease-fire. The initiating side, and its patrons, will deserve much credit. The side that drags its feet will lose accordingly. A cease-fire can save lives, lower the temperature and improve the atmosphere for talks.

One can imagine a clutter of talks and of bids for talks; between Nicaraguans, between the United States and Nicaragua, and in the Contadora group. The Sandinists and their Nicaraguan opponents have much to talk over and much to compromise on. Washington and Managua could usefully resume the bilateral talks that the Reagan administration broke off. On the Contadora group, however, fails a special responsibility to use the moment well. Its urgent task is to address the objections that other Central American nations have to the Contadora draft that Nicaragua accepted last Sept. 7. These objections relate mostly to inspection and verification of crucial nonintervention measures binding on both sides. This seems to us the likeliest place for early progress to demonstrate what desperately needs demonstrating: that there is an alternative to war.

- THE WASHINGTON POST.

The Soviet Oil Problem

Soviet oil production fell last year for the first time in a generation. It must have been a profoundly unpleasant shock in a country that, like America until the early 1970s, was accustomed to a steadily rising supply. There have already been repercussions. In the past couple of months the ministers of oil and of electric power have, as the Soviets say, retired.

The immediate cause of the trouble seems to be the inadequate maintenance that is common in Soviet industry. Perhaps improved management, under a new oil minister, can but Soviet oil production back on that rising curve - for a time. But somewhere ahead of them lies a more intractable limit, Although Soviet resources are enormous, the geology of Siberia has important similarities to that of North America. Development of America's oil fields started several decades earlier, and it seems likely that Soviet production will follow the same general pattern. American production peaked in 1970 and fell in the following years. Despite the enormous price increases, the supnas not risen. It nas om stopped falling, and now seems to be stabilized at roughly 8 percent below the level of 15 years ago. Simply holding that level is requiring a

gigantic effort by the oil industry, with high capital investment. There have been slight gains in production in the past several years, but those gains have been won only by a dramatic expansion of drilling. The number of oil wells drilled in the United States last year was more than 41,000 - a record, and more than double the rate in the late 1970s.

Soviet ability in this technology is not to be underestimated. For more than a decade they have produced more oil than any country in the world, and have done it in a region with an unforgiving climate. Several years ago they surpassed the United States to become the world's leading producer of natural gas as well. But to hold the present output steady is going to require an increasingly strenuous exertion.

The United States responded to the constraints on its domestic oil production in the 1970s by increasing imports. The Soviets are unlikely to do that. One reason is that they now depend on oil exports for most of their foreign exchange earnings. They may be aptain oil production joins their agricultural struggle as a source of economic strain.

- THE WASHINGTON POST.

Other Opinion

An Arms Vice Closes on Japan

The international military situation in the Far East surrounding Japan has become tense. We wonder if it is not possible for the United States and the Soviet Union to have talks to prevent the further spread of military deployment and whether Japan, with the cooperation of other Asian nations, can work for a similar purpose. The superpowers' military buildup race around Japan will needlessly heighten the tension in the region, inviting a dangerous situation not only for Japan.

Anti-Anti-Semitism in the '80s

Without [traditional Christian anti-Semitisml the Nazis could not have created the Holocaust. They used the demonization of the Jews by the Christian churches to condition their own citizens to indifference, their murder squads to insensibility and the rest of world to closing its eyes, ears and doors. The Jews and the Christians are now ap-

proaching each other on a mutual moral basis: the perfectibility of the world, in this world. Terrible acts such as those recently in Paris show that our fight is by no means over. But

today's anti-Semitism, rather than racial or even economic, is predominantly political. Therefore the fight against it should concentrate on political means.

- Gerhart Riegner, who has long worked for Jewish-Christian rapprochement, quoted in The Sunday Times (London).

Not the Way to Help Blacks

Many people are tempted to regard the recent upheavals in South Africa as the beginning of the end of the white-dominated regime. It is almost equally tempting to believe that the cause of the blacks could now be furthered by pressure and threats from other countries. But both assumptions are entirely false. Political motives may be behind the riots in isolated cases, but their main cause is the economic recession, which affects lower-income groups most severely. And although the chief sufferers are the black masses, the number of whites who are feeling the pinch is growing. The scope for racial reform is thus restricted, for the considerable cost would have to be borne by whites who are now even less inclined to accept compromises that would be an additional threat to their livelihoods.

- Neue Zürcher Zeitung (Zurich).

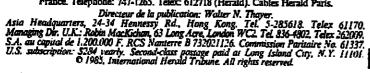

FROM OUR APRIL 8 PAGES, 75 AND 50 YEARS AGO

1910: China Cuts London From Tour PEKING -- Coincident with the departure of Prince Tsai Tao and a military mission from Yokohama for San Francisco, the announcement is made that the Prince will not visit England. Great Britain had notified China that the prince would not be welcomed there unless China agreed to meet British demands on certain pending claim cases. This demand was regarded in diplomatic circles as tantamount to an insult, and the Imperial family met it by promptly cutting England from the itinerary. The Chinese construe the cordial welcome which had been given to Duke Tsai Hsum in London as inspired solely by a desire to sell warships, while the refusal to welcome Prince Tsai Tao reveals a recognition that Great Britain is unable to compete with America and Germany in army equipment.

1935: Church Bells Silent on Sunday BERLIN -- The difficulties from Evangelicals and Catholics with which Nazi authorities are being faced were revealed in church services [on April 7] of both denominations. Many Protestant churchgoers had the unprecedented experience of church bells being kept silent and candles on altars unlit. The services were directed against what was termed a new mysticism preached by certain Nazi "false prophets." The passive demonstration of muted bells and dark altars was given by pastors who are opposed to Reichs-bishop Ludwig Mueller's church regime and who have banded as the Confessional Synod of Priests against the arrest of many of their colleagues. A new arrest was reported of a pastor who was preparing his Sunday sermon. He was released later but forbidden to enter his own church.

OH OH

\$200-billion range, it imported \$123 billion more than it exported last year — a \$54-billion increase over the \$69-billion deficit in 1983. up to just a small part of the total trade.

The huge trade deficit has caused a horrendous current account deficit of more than \$100 billion, transforming the United States from a net creditor country into a net debtor.

Virtually all the increase in the U.S. trade

deficit last year (\$50 billion) is traceable to a surge in imported manufactured goods, much of it caused by an overvalued dollar that made imports cheaper and exports less competitive. On top of its \$37-billion deficit with Japan, America had deficits of \$20 billion with Canada,

\$17 billion with Western Europe, \$11 billion with Taiwan, \$14 billion with OPEC members, \$6 billion with Mexico and \$4 billion with South Korea. So the first problem is global. Washington must cope with it globally rather than pre-tend that all will be well if Japan imports more. A second problem is the restricted nature of

access to the Japanese market. But this, as Lawrence Krause, an Asia expert at the Brookings Institution, points out, is a problem for the whole world - not only for the United States but for European and various Asian nations that have been frustrated in their efforts to break into the second-most-important economy in the world.

Undersecretary of Commerce Lionel Olmer has been leading the current round of negotia-tions with Japan. He explained the other day why

"It's a watershed issue because we believe we're predominant in the world in that techno-logy," Mr. Olmer said. "We can sell our products anywhere in the world on a fair, competitive basis, and we want that opportunity in Japan because we need access to the world's second-

largest market to sustain that competitiveness." Sir Roy Denman, head of the European Community's delegation in Washington, pointed out recently that Japanese imports of manufactured goods from the rest of the world have remained constant since 1960 at about 2.5 percent of GNP -less than half of the American-European ratio. "In fact, imports into Japan are mostly imports

of raw materials or food that they cannot get from inside Japan," he said. In an interview, Mr. Krause said total Japanese imports in constant dollar terms of all goods and services were less last year than in 1973, as a percentage of GNP — 13.1 percent compared to 14.2 percent. By contrast, Japan's exports as a share of GNP bulged in the period from 11.3 to 20.6 percent, "which means that Japan was putting tremendous pressures on the rest of the

world by expanding its market shares."

So despite 44 "packages" to open up the Japanese market since 1973, foreign penetration has been small. Who is to blame? Says the West

the products [Westerners] make are not fitting for the Japanese market." He warns that an attempt by the U.S. Congress to punish Japan with bilateral retaliation will backfire "and endanger the whole multilateral trading system."

Adds New York economist Henry Kaufman, just back from a trip to Japan: "The question is, how well are we ready to do business in Japan today? More of us must learn how to speak Japanese, learn their styles and their ways. We've got to make a commitment in time and effort far beyond what we've ever done."

But it is not just the foreigners' fault. Japan has done a masterful job of throwing up roadblocks, protecting infant industries and using every known bureaucratic device possible to limit the

purchase of foreign goods.

The danger is that in its frustration with the trade deficit — really, with the Reagan administration's economic policies as well as with Japan Congress will act emotionally.

"It's a big mistake to think that if we act tough, the Japanese will act rationally," Mr. Krause said. "If you think emotions run high here, you should measure the emotions there. The 'trade tensions' story is Topic A in the newspapers and on television: The main theme is that 'America demands more from Japan.' Emotion usually turns the Japanese inward. That's not good for the rest of the world — it wasn't good in the '30s and it won't be good in the '80s.'

The Washington Post.

Peres Needs Discreet American Pressure on Israel

N EW YORK — One often hears that Israel is divided into two major blocs that neutralize each other one favoring and one opposing withdrawal from the occupied terri-tories in accordance with UN Security Council Resolution 242. One also hears that no Israeli leader can defy a growing majority opposed to territorial concessions in the West Bank and

Gaza, and that any attempt toward progress would therefore be futile. So, the argument goes, why try? In fact this is quite wrong. To begin with, the Israeli public is no less prepared now than ever before to accept a compromise leading to peace. Israelis are in fact divided in three camps. Certainly, at the two extremes there are ideologically com-

mitted blocs: One remains adamantly opposed to any withdrawal and is ready to risk an indefinite state of war; the other is prepared to ex-change virtually all the territories for a peaceful settlement. Yet neither of them constitutes more than 15 to 20 percent of the population.

The remaining 60 percent are somewhere in the middle. Those centrists feel that Israel should retain control over as much of the territories as it can but return as much of them as it must. The key words there, "can" and "must," point to the dif-

itic. It aspires to Israeli stren and greatness, but it realizes that not all wishes can be fulfilled, that there are limits to power, that compromise is sometimes unavoidable. Whether these centrists learn to distinguish between the desirable and the possible will depend on Israel's leaders.

Were the government to give the public a feeling that Israel can hold on to the occupied territories unchal-lenged, it would be indicating to the people that their wishes are realizable. Were it to introduce a concrete withdrawal plan, it would demonstrate that the centrist block must forgo some of those wishes. The maionity would follow either lead.

The history of the last decade or so clearly supports this. Most opinion polls have shown that the majority of Israelis do not favor withdrawal as an incentive for a peace settlement. Yet In January 1974, for example, 80

over the years, major withdrawal agreements have had overwhelming public support. Why the discrepancy? Polls measure preferences in hypothetical situations, not actual behavior in concrete situations.

Democrats Must Make Economic Sense

emergence, for the first time since World War II, of the so-called minor parties — Republicans and Socialists, around whom orbit the Liberals and the Social Democrats. These are intermediate parties between two poles—the Christian Democrats and the Communists, both mass parties.

The emergence of the intermediate forces means a shift from an ideologi-

cal to a pragmatic approach - a shift being driven by the underlying societal change that has seen a reduction in the electoral strength of the Christian Democrats and the Communists.

This means that in the coming years a strengthened Italy is likely to play a more dynamic role in European unity, Western defense and Medi-

terranean stability.

The decline of the old politics has been especially evident since 1981. The Christian Democrats have held the prime minister's office for only eight months, under Amintore Fanfani; the Republicans for 17 months under Giovanni Spadolini, now the defense minister; and the Socialists for 20 months under Bettino Craxi. For 37 months, intermediate parties have headed the government.

The new trend emerged after the 1976 parliamentary elections, when the intermediate parties won 172 percent of the vote and the Christian Democrats and Communists together 73 percent. In the 1979 elections the four parties edged upward to 18.5 percent; the two major parties dropped to 68.5 percent. In 1983 the intermediate parties again rose, reaching 23.3 percent, and the two major parties declined to 62.6 percent. The Communists rallied a bit in the 1984 elections for the European Parliament (a sympathy vote after the death of the party leader, Enrico Berlinguer), but the trend re-emerged in municipal elections held afterward.

To be sure, the trend to the intermediate parties was fueled by the multiple crises that came to a head in early 1981: terrorism, galloping inflation (22 percent at the time) and political immorality, chiefly the "Italian Watergate" scandal of the "P-2" Masonic lodge, with its misdeeds and corruption in high places. But the trend also has deep roots in three is aligned with the small hard-line waves of modernization that have struck Italy since the war.

First, from the late 1950s through early '60s the economy wen an essentially agricultural to an industrial base, introducing fundamental changes in the style of life.

Second, secularization took hold. In a nation in which the Roman Catholic Church is enormously influential, divorce and abortion, whatever we may think of them, became legal in the 70s after nearly a century of political struggle — decisions con-firmed by overwhelming majorities in successive referendums.

The third wave - movement toward a post-industrial society -- was galvanized by the need to solve probems generated by the oil price shocks of 1973 and 1977. One sign of the new times is the increasing maturity of labor unions, especially evident in 1984 in the dramatic reduction in hours lost through strikes.

Of course, with pockets of preindustrial underdevelopment remaining, the economic picture is varied. But overall the emerging Italy is closer to the rest of Europe and the West, as is evident in headway against the Mafia, steps toward long overdue tax reform and movement toward constitutional change aimed at streamlining government operations.

An understanding of why parties long deemed minor hold the reins,

and why they are crucial to Italy's democratic growth and international position, will help avoid misunderstandings and tensions with these growing political forces. The New York Times.

LETTERS TO THE EDITOR

'Right' Is the Wrong Way

Recent Arab peace feelers have elicited ritual references by press and politicians to the PLO's refusal to recognize explicitly "Israel's right to exist." The refusal is cited as sufficient grounds for avoiding talks. This approach is not reasonable. It is a major obstacle to peace.

The word "right" has unavoidable moral connotations. Few would argue today that the Zionist settlers of Palestine or the European settlers of North America, South Africa and Australasia had any moral "right" to conquer and colonize the lands of their choice and to dispossess, disperse and, to varying degrees, destroy

their indigenous populations.
Such things happen. But there is a profound distinction between asking the dispossessed to acknowledge the new reality as a fact and demanding that they acknowledge the "rightness" of it. At issue is an avowal by the losers that they were not just outguined but inherently unworthy of basic human rights — in effect, somehow less than fully human.

Furthermore, formal recognition is the sole significant card in the Palestinians' hand. Their strength is a moral one: the acceptance by most of the world that the continuing disposses-sion and dispersal of the Palestinian people - often justified in Western minds in the context of resutution for grave injustices inflicted on Jewish Europeans by Christian Europeans

right, arguably the gravest inflicted on one people by another since World War II. From this acceptance flows the widespread nonrecognition of Israel by non-Western nations that have experienced colonization. It is vindictive to require the self-

humiliation of a people who have little left but their pride. It is unrealistic to expect the Palestinians to yield what little leverage they possess before negotiations even begin. It is counterproductive to the cause of peace to demand from the Palestinians the one thing they cannot give. "Right" is the wrong word here.
On a human level, talking constitutes mutual recognition. Let's get started. JOHN V. WHITBECK.

A Civil War Precedent Regarding the opinion column "Far-eign Policy: Set Your Own, Just 534" (March 28) by Ellen Goodman:

That the writer opposes private anti-Communist efforts in Nicaragua. is clear. What is less clear is whether it is anti-communism per se or the non-official nature of these efforts that bothers her, If the latter, I look forward to a Goodman column retroactively attacking the private, nonofficial anti-Franco efforts of the Abraham Lincoln Brigade in the '30s. Vietnam: A Noble Goal but a Flawed Strategy

HE 10th anniversary of the fall of Saigon is upon us. The pain of the day will not go away, would discredit the bated Establishment. Convinced systematically dismantled. Despite immediate and flanor will the memory of the wartime casualties, American and Indochinese, and the massacre of milhons that followed the collapse.

Vietnam ended America's innocence in international affairs. It was the first war in which its involvement was not triggered by overt aggression of organized units across a clearly demarcated line. It was the first war in which some sort of military outcome did not precede negotiations. It was the first war witnessed in the living rooms of America. It was the first war in which prominent Americans opposed their country's policy during highly publicized visits to the enemy's

In the process, Victuam turned into a tragedy in

four acts.

ACT 1: The Flawed Assumption. In his inaugural address, President John F. Kennedy announced that the United States would "support any friend, oppose any foe to assure the survival and success of liberty." No one challenged that sweeping commitment or the proposition that Indochina was a key outpost in the defense of liberty. Within six weeks marines were sent to Thailand; a year later 16,000 U.S. military personnel were assigned as "advisors" to help South Vietnam resist Hanoi-led guerrillas. Hanoi was regarded as the cutting edge of Chinese-Soviet global strategy. In retrospect, we know that Hanoi was working for its own account; in fact, it cleverly exploited the split between Beijing and Moscow of which Washington was as yet unaware.

The commitment of thousands of advisers put U.S. global prestige at stake; yet the commitment was not enough to be decisive. Throughout its Indochina involvement, the United States never solved the relationship between means and ends or even adequately defined its ends.

The ultimate political goal of the United States was noble: to enable a distant people to resist tyranny. On the other hand, the so-called free countries of Indochina, while far less oppressive than North Vietnam, were hardly democracies. Guerrilla wars are rarely pristine. The pace of guerrilla war and the pace of reform are different: bringing about democracy in a developing country requires a decade or more; destruction and chaos can be produced in weeks.

Refusal to face this reality caused the Kennedy administration to encourage — to put it mildly — the overthrow of South Vietnam's anthoritarian ruler. Ngo Dinh Diem, in 1963. The collapse of civil government was the watershed leading to two fateful decisions: it committed the United States to sustain the junta that replaced Mr. Diem and it tempted Hanoi to commit its regular forces.

ACT 2: The Ambivalent Strategy. President Lyndon B. Johnson felt obliged to carry out the logic of his inheritance; the cabinet left over from the Kennedy administration urged him on. An expeditionary force of over half a million U.S. combat troops was sent as far from American soil as our globe permits, but the United States lacked a strategy for bringing it home. The United States historically has sought to use its vast resources for a strategy of attrition; attrition, however, cannot work against guerrillas that defend no territory and are able to choose their own time for combat. In Indochina, moreover, they were operating from sanctuaries in all neighboring countries and were fought by the fashionable theory of gradual escalation designed to create pauses that would encourage compromise. In fact, gradual escalation convinced Hanoi that the United States lacked resolve.

As the war dragged on, demands for a political solution mounted. But they were bedeviled by the traditional American tendency to treat power and diplomacy as separate. It became a commonplace that North Vietnam would not negotiate — indeed could not be asked to negotiate — while its territory was being bombed, never mind the North Vietnamese troops illegally invading Laos, Cambodia and South Vietnam. President Johnson finally overcame his instinctive doubt and agreed to a bombing halt shortly before the 1968 election. In Korea the decision to end offensive operations after negotiations had started was responsible for 60 percent of U.S. casualties; in time — surely deepened the stalemate.

In the process, bipartisan support for foreign policy

evaporated. Between 1963 and the end of 1966, media, public and congressional support had been nearly universal. The few opponents relied on methods of traditional American democratic debate.

But by late 1966 the war became a rallying point for heretofore fringe groups seeking a radical transformanon of society. For them, Vietnam was not a painful geopolitical dilemma from which to extricate America

CANBERRA -- Prime Minister

that only a visible humiliation could curb America's penchant for foreign adventures, they mocked appeals to American credibility. And those who had taken the United States into the war were so demoralized that once out of office they were either silent or encouraged the extremists.

Too often, the media became unwitting collaborators. It was easy to record the horrors of modern warfare, much more difficult to distinguish between what was inherent in modern weaponry and what represented deliberate cruelty. Similarly, it was fairly simple to construct the vaunted credibility gap by reiterating the difference between governmental statements and what in fact happened."

A fairer analysis would have sought to determine what was due to genuine confusion and what was actual misrepresentation. In the process Hanoi learned that it could use the media to foster the

This is the ninth in a series of 10 articles by the former U.S. secretary of state. The last is to appear May 5.

illusion that the search for peace was like a detective story in which the North Vietnamese would throw out ambiguous clues and the administration had to guess at the answer. Thus, the diplomatic impasse was ascribed not to Hanoi's aggression but to a series of lost American opportunities.

ACT 3. The Painful Exodus. No one familiar with Richard M. Nixon's career could have believed that his campaign promise to end the war could mean simple abdication. On the contrary, it was surprising that a president, elected by a conservative constituency, went to such lengths to placate the liberal critics adopting in effect the peace program rejected by the Democratic Convention in 1968. But in the prevailing atmosphere of radicalization, every concession elicited further demands culminating in pressures to withdraw unilaterally and to overthrow the government of America's ally.

Mr. Nixon was convinced that it was immoral and dangerous for America to extricate itself by simply abandoning millions who had fought with it in reliance on its word. He undertook to salvage America's honor as he saw it by a tour de force: phased troop withdrawals to placate the protesters, private negotiations, sporadic pressures on North Viemam and major assistance to South Vietnam. Domestic pressures forced Mr. Nixon into compromises that often canceled themselves out. Every withdrawal encouraged Hanoi and every lunge inflamed the peace movement.

In the end, a president cannot conduct a war amid such passions by himself. Faced with congressional resolutions that progressively edged toward unilateral withdrawal, violent demonstrations and the hostility of the media, Mr. Nixon should have gone to Congress early in his term, outlined his strategy, and demanded an endorsement. Failing that, he should have liquidated the war. Mr. Nixon rejected such advice because he felt that history would never forgive the appalling consequences of what he considered an abdication of executive responsibility. It was an honorable, indeed a highly moral, decision.

Despite all obstacles, Mr. Nixon came heartbreakingly close to success. By the end of 1972, his administration had forced Hanoi to accept two irreducible conditions: The United States would not end the war by overthrowing an allied government; nor would it forgo the right to assist peoples that had fought valiantly at its side. What destroyed these prospects was the collapse of executive authority due to Watergate after the Paris accords were signed in 1973.

ACT 4: The Post-1973 Period. The apostles of America's inherent iniquity have propagated the ca-nard that all the Nixon administration sought was a fig leaf for South Vietnam's inevitable collapse. This is untrue and unworthy. To be sure, there were terms that one would have preferred to improve, but the Nixon administration believed it had achieved an acceptable settlement — all the more so as the alternative was a congressional cutoff of funds leading to a

Without these policy changes,

grant North Vietnamese violations, Congress voted in June 1973 to prohibit any American military action "in, over or near" Indochina. It cut appropriations to Vietnam by 30 percent in 1973 and by another 50 percent in 1974. It put a paltry ceiling on aid to Cambodia, prohibiting any American advisers and even the transfer of American equipment from nearby Asian allies. It launched an assault on detente at a time

of maximum weakness of the executive branch.

President Nguyen Van Thieu panicked when it became clear that he would not receive the supplementary appropriation he had been promised for 1975. And Hanoi decided to throw the dice after having occupied a provincial capital, demonstrating that not even the grossest violation would be met by U.S.

We shall never know whether South Vietnam could have held out with a more generous and resolute American policy. But that is not the point. The United States owed the peoples of Indochina a decent opportunity for survival; its domestic divisions made it impossible for the United States to pay this debt.

What is one to learn from this sequence of events? · Guerrilla wars are best avoided by pre-emption, by generous programs of assistance and reform in countries the United States considers vital. But once a war is in progress, victory cannot be achieved by

 Before America commits combat troops it should have a clear understanding of the nature of the threat and of realistic objectives. This presupposes two conditions: (a) a bipartisan consensus of what constitutes a vital interest and (b) a recognition that the global balance of power is more likely to be overturned by seemingly marginal increments than in grand assault.

 When America commits itself to military action, there is no alternative to achieving the stated objective. Qualms cannot be stilled by halfhearted execution; prolonged stalemate will inevitably sap the will of a

• A democracy cannot conduct a serious foreign policy if the contending factions do not exercise some restraint in their debate.

If Vietnam is to leave any useful legacy, America owes it to itself to make a fair assessment of the lessons

of that tragedy. That has not yet occurred. Radical critics seek to impose a version of history according to which bloodthursty leaders sustained a war with no purpose except to satisfy twisted psychologies. But the boat people of Vietnam, the hundreds of thousands of Vietnamese who are still in concentration camps a decade after Saigon's fall, the poison gas in Laos, the genocide in Cambodia, bear their own

Henry A. Kissinger

witness. To have striven to prevent such horror is no

The right distorts history by simply ignoring Vietnam. Its isolationist wing had always been more comfortable with strident anti-Communist rhetoric than with commitments to fight communism on distant battle fronts. Most neoconservatives in fact belonged to the peace movement after 1973. Hence, in the conservative version of history all frustrations of the 1970s are blamed on détente as if there had been no Vietnam War and no Watergate.

The lapse of a decade should enable America to face its past. As it turned out, the dominoes fell visibly only in Indochina. But the experience of Vietnam is deeply imprinted in the intangibles by which other nations judge America's staying power and even more in the willingness of America to defend its vital interests or even to define them. On the other hand, the Soviet Union after a spurt of expansionism is mired in contradictions. Vietnam, by its singleminded brutality, has turned itself into a pariah.

America failed in Vietnam, but it gave the other nations of Southeast Asia time to deal with their own insurrections. And America's very anguish testified to its moral scruples. Once again, free peoples everywhere look to America for safety and progress. Their greatest fear is not America's involvement in the world but its withdrawal from it. This is why 10 years after the sadness of Saigon's fall, American unity is both its duty and the hope for the world.

A CONTRACTOR OF THE STATE OF TH

EUROBONDS

Move to Cut U.S. Deficit Is Good News to Investors

By CARL GEWIRTZ International Herald Tribine

ARIS — Drift in the bond markets — as investors clung to the sidelines awaiting some clue as to where interest and foreign exchange rates were headed — evaporated with dramatic suddenness late last week.

The spark was the report from Washington that the Reagan administration and Senate Republicans had agreed on cuts to trim the projected federal budget deficit by about \$300 billion over the next three fiscal years.

The news came too late to affect the Eurobond market, which had already closed for the Easter holiday, but sparked a rally in New York where yields on Eurobond Yields

long-term Treasury bonds dropped 12 basis points and short-term yields slipped 4 basis points. (One hundred basis points equals one per-

centage point.)
The news also buoyed the dollar, which set a high for the week at 3.18 Deutsche marks before closing at 3.16

The euphoria was tempered by the fact that the budget still must be approved by Congress. The outcome is by no means certain. In addition, even if the cuts are enacted they may come too late to head off a renewed increase in interest rates. This could result if the

pace of the economic expansion heats up and credit demand runs into conflict with the Federal Reserve's monetary policy. At present, however, the progress on plans to cut the deficit which bond markets view as putting the greatest upward pressure on interest rates — should be good news for the Eurodollar bond

Two aggressively priced issues were launched late last week for Union Pacific and General Reinsurance. Both companies, whose domestic debt is rated double-A, are offering \$100 million of

seven-year bonds carrying coupons of 11½ percent.
In contrast to recent Eurodollar offerings, which were priced to yield investors more than comparably dated Treasury paper, the new issues were brought to market at an all-in cost (including front-end commissions) of 10 basis points below Treasury yields.

TVEN the demonstrated reluctance of international investors to make new commitments in dollar bonds—even to issues yielding more than Treasuries—the terms were widely regarded as outrageously aggressive. This was reflected in the sharp decline in the price of the new issues, which were offered at par. Union Pacific was quoted at 97% and General Reinsurance at 96% discounts well outside the total commissions

and representing a significant loss for underwriters.

To put the terms in some perspective, the recent triple-A-rated Canadian government five-year notes carrying a coupon of 11½ percent ended the week at 99%.

Meanwhile, South Africa - a rare, albeit unpopular name tapped the market for \$75 million, offering six-year, 121/2-percent paper at a discount of 991/2 for a yield of 12.62 percent.

Overall, the market registered a clear interest in non-dollar alternatives — going so far as to accept the South African rand, making its first appearance in the international market. South Africa's Electricity Supply Commission made a private placement of 50 million rand of five-year notes carrying a coupon of 16 percent. This was sold almost exclusively to investors in West

With the rand, and recently the Danish kroner and the Austra-lian and New Zealand dollars attracting investors, it was hardly surprising that the French would decide to reopen the Eurofranc

Gaz de France this week is scheduled to offer 500 million francs of 15-year retractable bonds - meaning that every five years holders will have the option to request redemption.

Continental bankers said they were confident there was inter-

est in the franc in the Benelux countries but the big question was whether the terms would be pitched high enough to woo inves-tors. On Thursday, with domestic five-year government paper (Continued on Page 9, Col. 1)

'Intrapreneuring': A Corporate Can-Do Theory

By Eric N. Berg

NEW YORK - For years. management gurus have argued that entrepreneurship would be the panacea for the U.S. economy's competitive ills. Now, a theory has come onto the U.S. business scene that, if not questioning the conventional wisdom, cer-tainly casts it in a different light.

The theory goes by varying terms: corporate entrepreneur ship, corporate venturing, "intra-preneurship." But they all convey the same idea: that employees can be entrepreneurs while working for large companies.

The idea appears to be catching on. In December, the president's Commission on Industrial Competitiveness issued a report on entrepreneurship with an entire section devoted to intrapreneurship. Since then, articles men-tioning the subject have appeared in the Sloan Management Review and the Harvard Business Review. A number of companies, including International Business Machines Corp. and General Motors Corp., have established small, separate business units to foster intrapreneurship.

Study Questions Reagan Proposal On Oil Reserves

By Lee A. Daniels

New York Times Service NEW YORK - A Reagan administration proposal to temporarily delay completion of the Strate-gic Petroleum Reserve may set back the United States's ability to withstand an oil shortage, according to a study by the General Accounting Office.

The study, which has not been released to the public, is the first independent examination of the possible effects of the proposal to stop filling the reserve when it reaches 489 million barrels at the

tion package agreed to Thursday by the president and the Senate Republican leadership.

The current appropriation for the reserve is \$1.7 billion. The re-serve now holds about 466 million barrels and is supposed to reach 750 million by 1990. Of the reserve's six sites, two are full, three are partly filled and one is under

The study by the GAO, the investigative arm of Congress, does not make formal recommendations. It says, though, that "serious consideration" should be given to continuing to build the reserve's storage facilities and instituting an oil-purchase policy that would fluc-mate depending on prices. William A. Vaughn, the Depart-

ment of Energy's assistant secre-tary for fossil energy, told a House committee last month that a nearly 20-percent decline in petroleum imports since 1977 has reduced the need to follow the original schedule for completing the reserve.

But Representative Mike Synar, Democrat of Oklahoma, chairman of the House Subcommittee on En-vironment, Energy and Natural Resources, as well as other critics of the administration proposal.

challenged that view.

Mr. Synar said the GAO study shows that a moratorium would

end of September.

The reserve was begun in the mid-1970s to create a 90-day emergency supply of oil to protect the country against a shortage.

The proposed moratorium was incorporated into the deficit-reduction washing to the deficit reduction washing to the study setting a basic five-year maintenance cost for the reserve at \$828 million, said additional control of the study setting a basic five-year maintenance cost for the reserve at \$828 million, said additional control of the study setting a basic five-year maintenance cost for the reserve at \$828 million, said additional control of the study setting a moratorium would simply delay spending for the reserve, ultimately making it more expensive to complete. would range from nothing under the Reagan proposal to \$538 million for the completed reserve.

The total cost of a storehouse with 750 million barrels is estimated at \$24 billion; \$16.7 billion has already been spent on the reserve.

California Bank Forced to Close

Reuters WASHINGTON — The fail-ure of Capistrano National Bank in San Juan Capistrano, California, has been announced by the Federal Deposit Insurance Corp., which said its liabilities were being assumed by an-

other bank.
FDIC officials said Friday
that it was the 22d bank failure in the United States this year

and the third in California.

The FDIC said the failed bank's liabilities were being assumed by Farmers & Mer-chants Bank of Long Beach, California, which took over about \$41 million in 8,900 deposit accounts and other liabilities and agreed to pay the FDIC a purchase premium of \$3.05 million.

Draws Little Reaction

By Carl Gewirtz International Herald Tribune PARIS - The initial reaction to the Bank of England's long-await-ed move to temper the accelerating

facilities last week was a yawn. The rapid expansion of the market is assumed to be closely linked to the fact that the underwriting

AN INTERNATIONAL CONFERENCE ORGANIZED BY PLANT LOCATION INTERNATIONAL IN COOPERATION WITH THE INTERNATIONAL HERALD TRIBUNE

THE INVESTMENT CLIMATE AND INCENTIVES IN EUROPE

April 25-26, 1985, Brussels

The conference will provide senior executives with an in-depth analysis of the current and future investment climate and the incentives offered in sixteen European countries. Question and answer periods will follow each session.

Thursday, April 25, 1985

Norway: Mr. V. Hveding, Chairman, Christiania Bank Oslo, former Minister of Energy.

Denmark: Mr. M. Ostergaard, Managing Director, Industrial Development Council of North Jutland.

Belgium: Baron A. Bekaert, President, Bekaert N.V.
The Netherlands: Mtr. A.A.M. van Agt, Commissioner
of the Queen, Governor of N. Brabant Province, former Prime Minister.

Guest kincheon speaker: Prof. Dr. P. Mathijsen, Director General of The EC Regional Policies.

of Belgium.

Portugal: Mr. E. Lopez, Minister of Finance. Spain: Don Leon Benelbas, General Assistant Director

Manager, General Motors Vienna. Switzerland: Mr. Carl Meyer, Vice-President Finance, Swiss Asuag-SSIH.

Austria: Mr. G. I. Genn, General Manager, ICD, former General

Sweden: Mr. K. Lewenhaupt, The Wyatt Company AB.

Luxembourg: Mr. Z. Magnus, General Manager, Kredietbank, Luxembourg.

Reception: Hosted by Minister of Brussels, Mr. P. Hatry.

Friday, April 26, 1985

France: Mr. J. Paul Horne, Senior Economist, Smith Barney, Harris Upham & Co. West Germany: Mr. B. Layton, former President, Ford Europe.

of Economic Planning, Ministry of Economics. Guest luncheon speaker: Mr. W. Martens, Prime Minister

Italy: Dr. Gianni Varasi, President of the Federation of the Chemical Industry, Italy. Greece: Mr. S. Papacistathiou, Deputy Governor, Hellenique Industrial Development Bank.

> United Kingdom: Sir Edwin Nixon, President, IBM (U.K.). Ireland: Mr. L. P. Doyle, General Manager, Allied Irish Banks Limited Europe.

Play Havoc With Market By Michael Quint New York Times Service

Mood Shifts

NEW YORK - Faced with a host of conflicting economic devel-opments, the credit markets seem vulnerable to continued sudden shifts of mood that may be exciting for traders, but are anathema to many potential investors.

"Concerning near-term economprospects, market opinion has fluctuated widely in recent weeks." analysis at Aubrey G. Lanston & Co. said in a market newsletter.

The fluctuations have played havoe with interest rate forecasts, since expectations of lower interest

U.S. CREDIT MARKETS

rates stem from signs of a weaken-ing economy, while forecasts for higher rates follow from economic strength.

New Treasury notes and bonds sold in the last week of March are still trading above their average auction prices, but specialists in the government securities market said speculative and investor activity vas light last week.

By the time trading stopped late Thursday, yields on government se-curities were little changed from a week earlier, with three-month bills at 8.11 percent, two-year notes at 10.46 percent, seven-year notes at 1.64 percent, and 30-year bonds at

Yields for notes and bonds would have been slightly higher, except for a rally Thursday after-noon following a U.S. budget compromise that could cut more than \$50 billion of the 1986 federal defi-

Analysts at government securities firms said lower deficits would contribute to lower interest rates, especially for notes and bonds, but added that they needed to learn details of the legislative package to be sure it would result in a \$50billion reduction in the Treasury's borrowing needs.

Friday's employment statistics were an ambiguous development. despite the stronger-than-expected 381,000 increase in non-farm payrolls. The gain, which was coupled with an increase in the hourly work week, was stronger than the 112,000 in February, and led economists to predict healthy increases in personal incomes, retail sales and industrial production this

Although the consensus forecast is for continued economic expansion through 1985, some economists see the condition of the manufacturing sector as a glaring weakness that could blight the rest Rather than worry about rapid

U.S. Trade Nominee Is a Pragmatic Negotiator

By Steven Greenhouse New York Times Servi

CHICAGO — Ten years ago, the United States was engaged in what was known as the cheese war with the European Community. The United States accused the EC of subsidizing its cheese, and Clayton K. Yeutter, an assistant secretary of agriculture for international affairs, was in charge of negotiating an end to the trading war.

Mr. Yeutter considers that as his linest hour.

That was the first time in Common Market history that they agreed to withdraw some of their agricultural subsidies," said Mr. Yeutter, nominated last week by President Ronald Reagan to be United States trade representative. "It made some of the Common

Market's agricultural ministers very unhappy.'
Many of Mr. Yeutter's associates said that the Chicago executive seems to have spent his whole life preparing to be the nation's special trade representative. He currently is president of the Chicago Mercantile Exchange, one of the world's leading futures trading arenas. He served as deputy special trade representative from June 1975 to February 1977.

Before that he helped oversee the rapid expansion of U.S. grain exports as assistant secretary of agriculture in charge of international affairs and commodity programs.

Mr. Yeutter's associates described him as a tough, tireless negotia-

tor and an ideological free-trader with a pragmatic bent. "He is imbued with principles of free trade but he recognizes the importance of furthering the interests of the United States," said Donald M. Nelson, an assistant special trade representative for agricultural affairs who knows Mr. Yeutter from their days in the Agriculture Department. "That means he won't be doctrinaire, he will

Discussing his views on trade at a news conference Wednesday and in an interview in his office overlooking the Chicago River, Mr. Yeutter said: "There's no question that my basic philosophy in trade is 100 percent in line with that of President Reagan. That is, an orientation toward a free and open system, but with a recognition that

"There has to be a level playing field out there," he said. "It's important for the U.S. to protect its own interest on trade issues, and that certainly does not put me in the protectionist category. During his seven years as president of the mercantile exchange, Mr.

Yeutter has remained involved in international relations. For instance, he is in the middle of negotiating with the Japanese for the right to use a Tokyo Stock Exchange index for futures and options trading. He also has traveled extensively to Europe to try to persuade investors there to trade Eurodoliar futures and other currency futures

and options at the Chicago exchange.

The exchange, often called the Merc, is a bustling trading center where people buy and sell contracts on agricultural, currency and interest-rate futures. During Mr. Yeutter's tenure there, its volume has more than tripled, to 44 million contracts last year.

Clayton Keith Yeutter (rhymes with writer), who was born Dec. 10, 1930, in Eustis, Nebraska, has come a long way from his childhood in what he described as a 2,500-acre (about 1,017 hectares) "corn and cow" farm. He received his bachelor's degree from the University of Nebraska in 1952 and after spending five years in the Air Force, he returned to run the family farm.

He received a law degree in 1963 from the University of Nebraska and a doctorate in agricultural economics there three years later.

"He is an extremely intelligent man," said Michael S. Turner, a professor of agricultural economics at the University of Nebraska who was teaching there when Mr. Yeutter was a graduate student, "I think his most outstanding characteristic is his capacity to work. He just has a phenomenal ability. He is one of a half a dozen people l

know who I would put into that category."

Mr. Turner remembers traveling throughout Nebraska with Mr. Yeutter as the recent law graduate explained estate planning and a new state code to farmers. Mr. Yeutter was hired as a professor at the university and later became director of the its agricultural and

technical assistance program in Bogota, Colombia. It was at that time, from the fall of 1968 to the fall of 1970, that he

Clayton K. Yeutter, nominated to be U.S. trade representative, at his Chicago Mercantile Exchange office.

not only learned Spanish but also developed an abiding interest in international trade, especially as it relates to agriculture.

With regard to the hottest trade issue of the day, trade relations with Japan, Mr. Yeutter refused to discuss what he might do to relieve

"The Japanese relationship is an extremely important one," he said. "In the Western world, that is our most important economic and political relationship by far. The rhetoric certainly has become in-

creasingly harsh, not always without good reason."
"Perhaps the tensions will be defused by actions of other nations" rather than by actions of the office of the trade representative, he said.

Mr. Yeutter is married to the former Jeanne Vierk, who also aduated from the University of Nebraska. They have three sons and daughter - three are university students and one is a lawyer. Mr. Yeutter, who colleagues say often works from 7:30 A.M. to 6 P.M., said he had little time for fun. He skis occasionally, and said he tries to walk around Chicago as much as possible for exercise.

nominated as trade representative, Mr. Yeutter telephoned the news to his 88-year-old mother in Nebraska. "When I called her from the White House, all she wanted to know was how long I'd have to stay in the job," Mr. Yeutter said. "She

always wants to know why anyone would want to live in Washington

when they could live back home in Nebraska."

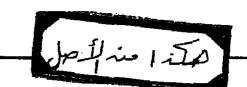

Minutes after Mr. Reagan announced that Mr. Yeutter would be

THE EUROPEAN COMMUNITY

Steel Dispute With U.S. Is Reaching Critical Stage

By Steven J. Dryden BRUSSELS - The latest dispute between the United States and the European Community over steel could reach a critical point

The United States notified the EC in February that it believed the level of community exports of semifinished steel products violated their 1982 carbon steel trade

The agreement provided for a 60-day period of consultations when violations were suspected. The period ran out Monday and the United States has said it might impose limits on community semifinished steel products.

The EC Commission said it would react "vigorously" to any U.S. curbs on steel and is studying a list of U.S. exports, including agricultural products, that could be limited in retaliation.

The EC and the United States

since February without reaching an agreement. A request by the community last week for another meeting has not been answered by Washington.

The West German agriculture minister, Ignaz Kiechle, refused to go along with the Commission's recommendation that grain minister. have held two meetings on the issue

The United States said the com-

munity boosted sales of semifinished steel products to get around limits on other types of steel in the 1982 accord. The agreement does not cover semifinished products but provides for consultations if one party believes trade is being diverted to avoid the restraints.

The EC has rejected the U.S. charge, saying the high value of the dollar and demand from American manufacturers have caused the in-

Bonn Blamed for Delay On Farm-Price Accord

The failure of community agriculture ministers to agree on farm prices last week will probably delay an accord until at least mid-May, EC officials said.

Normally, the 1985-86 prices should be agreed upon by April 1. West Germany, which has been heavily criticized in the community for its position, was blamed for the breakdown of the meeting, held in

that its farmers' incomes have suffered unfairly compared with others in the community.

France and several other countries criticized West Germany for taking what they said was a contradictory approach to community policies. They said Bonn called for strict overall EC spending limits while seeking exemptions when West German interests were threat-

Filippo Pandolfi, the Italian farm minister who chairs the agriculture session under the EC's rotating leadership, has not ruled out a vote to overcome the West Ger-

Italian Representative

Is Given a Promotion

While Italy still faces difficulty in arranging an agreement on agri-culture, it has a major achievement to its credit: the conclusion of the expansion talks with Spain and

Giulio Andreotti, the Italian foreign minister, assisted by the Italpermanent representative in Brussels, Pietro Calamia, conducted the six days of nonstop negotiating that led to an agreement last

Last Wednesday, Mr. Calamia received what his colleagues said was recognition of his efforts; appointment to the rank of full ambassador by the Italian council of

ministers. Italy has only 18 full ambassadors in its foreign service. Mr. Calama, 55, is on his third tour in Brussels, including one as deputy chief of mission from 1978 to 1980. He then served as Italy's

Delors Cautions Japan On Trade-Barrier Moves

envoy to Yugoslavia before return-

ing to Brussels last year.

The Commission president, Jacques Delors, has told Japanese Prime Minister Yasuhiro Nakasone of Japan that the EC should not be left out of coming Japanese

trade liberalization moves. In a message to Mr. Nakasone, Mr. Delors emphasized the community's interest in seeing Japanese administrative procedures and import rules simplified, as well as increased Japanese purchases of

EC products. Mr. Delors said the EC would not accept new Japanese trade policies that only benefited the United

Chemical's Ohio Bid 'Makes Sense'

The Associated Press NEW YORK - Chemical New

York Corp., which signed a letter of intent Friday to acquire the business of a closed Ohio thrift, is known as a leading lender to middle-sized businesses.

As a result, analysts said, they were not surprised by the interest which the U.S.'s sixth-largest banking company exhibited in the possi-bility of making an acquisition in Ohio, where middle-sized businesses are abundant.

Fred Wightman, who follows the banking industry for Duff & Phelps Inc. in Chicago, said Chemi-cal had demonstrated "a real talent" for cultivating retail and "middle-market" business through its principal subsidiary, Chemical

"Their long-term strategy calls

for applying such expertise in other parts of the country. The national expansion motive is evident here," he said. Lawrence Cohn, a banking anayst for the securities firm of Dean firm. Witter Reynolds Inc., in New

with those kinds of companies."

Mr. Cohn made his comments earlier this week after it had become rumored that Chemical may reopened for at least limited ser- cent from \$305.6 billion in 1983.

A spokesman for Chemical, Ken Herz, said it has long been ranked as the top lender to middle-market businesses in the tri-state area of New York, New Jersey and Con-necticut. He said the bank considers middle-market businesses those with annual sales of \$5 million to

\$150 million.

Chemical said Friday that it had signed a letter of intent with the state of Ohio to buy Home State. Under the agreement, Chemical would establish a newly chartered, federally insured commercial bank in Ohio providing comprehensive banking services.

Home State closed March 8, as depositors descended on the thrift to withdraw their money. The depositors were worried because Home State had disclosed that it stood to lose about \$145 million as a result of its transactions with a failed Florida-based securities

The Home State closing jeopar-York, said: This makes tremendized a private deposit insurance dous sense. Ohio is chock-a-block fund and prompted the governor of Ohio to close other savings and loans insured by the same fund. Although most of the others have net was \$340.8 million, up 11.2 per-

be interested in acquiring Home vice, Home State depositors remain State Savings Bank of Cincinnati.

Chemical's agreement is subject to several conditions, including a detailed evaluation of Home State's assets and liabilities, the passage of enabling legislation by the Ohio legislature, approval by Chemical's board and regulatory approval. Federal law prohibits interstate banking except when the laws of the states involved permit

commercial bank outside its New York state base, although it operates corporate lending offices else-where in the United States. Mr. Herz said Chemical had opened offices specializing in middle-market lending in the past two years in New Jersey and Connecticut

Mr. Herz said it had agreed in 1982 to merge with Florida National Bank in Jacksonville, but legislation has not been passed to permit the merger. Chemical Bank is the sixth larg-

est in the United States with assets of \$35.1 billion. It has 260 domestic branches. Its parent has assets of \$52.2 billion and a staff of 20,000 worldwide. In 1984, Chemical New York's

Mitsubishi Says

TOKYO — Mitsubishi Elec-tric Corp. said it was considering purchasing telecommunications equipment from Rolm Corp of Santa Clara, Califor-

nia, and marketing it in Japan. Mitsubishi, which made the announcement Friday, said it has not reached a final decision on purchasing digital private branch exchanges, or PBX's. from Rolm, a subsidiary of International Business Machines

Corp. of Armonk, New York. But analysts said the purchases would be a way for Mitsubishi Electric to tighten con-nections with IBM, greatly improving Mitsubishi Electric's position in Japan's telecom nunications market.

Since Japan's telecommuniations market became liberalized April 1, Toshiba Corp., one of Mitsubishi Electric's competitors, already has begun discussions with American Telephone & Telegraph Co. apparently aimed at cooperation in marketing telecommuni cations equipment in Japan.

ployees to Boca Raton, Florida, ness successes. The reasons, he said giving them their own budget and in a recent interview, are many, ignoring long-standing policy of

who turned hobbies into big busi-nesses for their employers. "The idea is not new at all," said

Howard H. Stevenson, a Harvard

consultant in New Haven, Connecticut, who has spent several years promoting intrapreneurship at some of the nation's largest industrial concerns, including Exxon Corp., Du Pont Co., Ford Motor Co. and American Telephone &

For example, most large compa-

And there have been countless a new business will earn, which is ale in the ca ventures, he said. And the "passion" of an innovative idea often gets lost as it moves from product development to manufacturing to chot provides a checklist for man-

agers and employees wanting to be more intrapreneurial.

For employees, for instance, Mr. Pinchot offers an "Intrapreneur's Ten Commandments." Among them: "Come to work each day willing to be fired."

Some call that nonsense: "It's simply not a realistic possibility for a significant proportion of the work force working in traditional organization," Miss Kanter said. "If they went to work each day expecting to get fired, chances are they would."

Managers, by comparison, are urged to end the "home-run philosophy," in which companies favor a

employees corporate "slack": the time, money and equipment to tin-

But the successes aside, intra-According to banking experts, it was partly the intrapreneurial outlook of lending officers that led many big banks to make large loans in the energy industry in the mid-1970s. Many of those loans have soured with falling oil prices.

Similarly, Bankers Trust Co., which has been trying to be more intrapreneurial by adding investditional commercial banking skills, has reportedly been struggling with a problem that many companies face: how to compensate its intra-preneurs. By paying investment bankers more, according to sources bred resentment among other em-

For his part, Mr. Pinchot says the problem is surmountable: Pay few well-planned projects, and to concentrate on developing many small, experimental businesses. They are also encouraged to give projects.

BOOKS

A CHANGING ISRAEL

By Peter Grose. 129 pp. Paper \$4.95. Vintage, 201 East 50th Street, New York, N. Y. 10022.

Reviewed by J. Robert Moskin

HE truth is Israel has changed drastically. With the occupation of the West Bank and the Gaza Strip in 1967 and the rise to power of the leaders of the pre-state right wing Irgun and Stern Gang undergrounds 10 years later, the pioneer era is over. It has been succeeded by discordant values, divisiveness, an economy out of control and a million conquered Arabs. Israel has traded a measure of external safety

In this brief, fact-studded book; Peter Grose, managing editor of the Council on Foreign Relations' magazine, Foreign Affairs, identifies four major changes that bear on Israel's domestic well-being and external relations with the rest of the world. These perceptions of change will be surprising even to those who have been paying attention.

The first change Grose emphasizes is that Israel has become a "fractious society." He is not referring to the familiar split between the Ashkenazi and Sephardi Jews — which he sees as "cultural divisions of the Diaspora [that] are losing their relevance" — but the clash of rigidly observant and secular Jews between whom "tensions and bitterness [are] growing. He says that "the conflict between the varying demands of religious observance is the most potentially disruptive threat to the unity of Jewish Israel." Secondly, Grose decries the disastrous, self-

indulgent inflation that has "brought the nation to a genuine economic crisis." As a result, 350,000 Israelis (10 percent of the population) have moved to the United States and many others ship their savings out of the country.
"Israel is an economic ward of a foreign power, the United States." Grose adds. "The state of the Israeli economy is no longer a purely inter-nal matter to be left to Israeli politicians. It is, to an increasing degree, the United States Treasury and the American taxpayer that underwrite the economic priorities defined in

Third, he says, "The undeniable reality, not planned and not pleasing to either side, is that the extended Jewish state of Israel is becoming a binational society." But he disagrees that

higher Arab birthrates will evenually overwhelm the Jewish state. He points out that between 1967 and 1982, the West Bank birthrate was indeed 4.1 percent, but the actual population growth was only 1.4 percent. "The fact is Arabs are quietly leaving the West Bank." And, "The regime of martial law that existed since 1967 serves the interests of Jewish Israelis quite well, and the Arab palestinians under occupations have not yet railied to chal-

lenge this status quo. Fourth, Israel replaced wars of survival with a war of conquest. Israeli troops "had always believed that when they were sent to the front line, it was to defend Israel's vital interests and survival. That faith was lost in Lebanon. . . . Disillusionment spread to the civilian popula-

tion." Ariel Sharon's arrogant 1982 invasion of Lebanon (which the United States "unwittingly underwrote" turned adventurism into despair and 600 Israeli dead. It was a "tragic and costly blunder." Grose says, "more than at any other time in their history. Israelis began to question the legitimacy of their government's military judgement. . . A serious break-down of civil responsibility had occured.

Now, the so-called "unity government" headed by Shimon Peres is trying to escape from Lebanon, bring the economy down to earth and restore the Israelis' faith in themselves as a righteous people. It has a lot of sweeping up to do. Peter Grose explains some of the reasons why. His book, the product of a Council on Foreign Relations study group on Israel, is short enough, clear enough and right often enough to offer a reader a quick onceover of the state of Israel today.

But Grose goes a step further. He recommends what Americans should do about this changing Israel If the United States were to follow Peter Groses's controversial prescrip-

tions, it would: • Keep the U.S. Embassy in Tel Aviv: Grose says to move it to Jerusalem, Israel's capital, is "a foolish and irresponsible" proposal - despite repeated political promises to do

 Put a cap on economic support to Israel to stop fueling the runaway inflation that Israeli politicians do not have the courage to deal

 Send financial aid to improve the living conditions and productivity of Arabs on the West Bank, since, Grose says, they are not about to get either national self-determination

or Israeli annexation. Accept the premise that the 1967 borders on the Jordan River and the Golan Heights 'may well hold firm for a long time to come." Somehow arrange "a stand-off understanding" between Israel and Syria to mini-

mize the danger of renewed hostilities. When the time comes for Middle East mediation, invite the Soviet Union to be "in the supporting cast, rather that carping from the galleties."

These very debatable recommendations are an attempt by Grose (and presumably the council's study group)to outling an American policy in response to a changing Israel. They deserve to be poured into the pot of the ongoing debate.

J. Robert Moskin, senior editor of World Press Review, is the author of "Among Lions,"the story of the battle for Jersualem in 1967. He wrote this review for The Washington

SPORTS BRIEFS

Prost Victor in Formula 1 Season-Opener

RIO DE JANEIRO (UPI) — Frenchman Alain Prost, driving a McLaren, defeated Michele Alboreto to win the season-opening Brazilian Formula One Grand Prix race here Sunday, taking the event for the second consecutive year, Early leader Keke Rosberg dropped out when the turbo broke on his Williams, and Prost took a solid lead over Alboreto midway through the race. Alboreto, in a Ferrari, finished well ahead of Elio De Angelis (Lotus).

Eternal Prince, Skywalker Win Prep Races

NEW YORK (UPI) — Eternal Prince, at 18-1, was never seriously challenged here Saturday in beating favored Pancho Villa by five lengths to win the one-mile (1.61-kilometer) Gotham Stakes, a stepping stone to the May 4 Kentucky Derby. Meanwhile, in Arcadia, California, Skywalker won by a nose over Fast Account in the mile-and-one-eighth Santa Anita Derby, Southern California's final preprace for the first less of the Triple Croppe. race for the first leg of the Triple Crown.

Eternal Prince clocked one minute, 34 and two-fifths seconds, one second slower

than Secretariat's track record, set in 1973.

Moorhouse of U.K. Sets Breaststroke Mark

MANCHESTER (UPI) - Adrian Moorhouse of Britain clocked a world record of one minute, 0.58 seconds in the 100-meter breaststroke at the national short-course (25-meter) swimming championships here Saturday. Moorhouse, fourth in the men's 100-meter breaststroke final at the 1984 Olympics, shaved three-hundredths of a second off the mark set last year by Victor Davis of Canada.

Floyd, Blackmar Greensboro Golf Leaders

GREENSBORO, North Carolina (UPI) — Ray Floyd and PGA newcomer Phil Blackmar were tied at four shots under par Saturday through three rounds of the

Greater Greensboro Open golf tournament.

Floyd, a 22-year tour veteran, and Blackmar, who qualified only last fall, compiled 54-hole totals of 212 going into Sunday's final round. Floyd's 66 was the best score of the third round; he carded birdies on seven of his first nine holes and added two more on the back nine. Blackmar had a 68 Saturday.

A 75 tied Bobby Clampett for second at 213 with Peter Jacobsen (a 70) and Dan Pohl (71). Jeff Sluman, who had held the lead alone through the first two rounds,

fell to 77/214 when his putting faltered.

Ueberroth Lifts Blue's Baseball Suspension the franchise, prompting the quarterback Steve Young to say: "What if we win the learned Day What

NEW YORK (AP) - Peter Ueberroth has reinstated pitcher Vida Blue, who is in training camp with the San Francisco Giants, the baseball commissioner's office announced late Friday. Blue had been suspended for the 1984 season by Ueberroth's predecessor as commissioner, Bowie Kuhn, as a result of a 1983 conviction for drug possession. The suspension required that before he was reinstated this year, Blue had to

prove he no longer uses drugs and to demonstrate his compliance with a probationary program. Those conditions have been satisfied, Ueberroth's office said. ary program. Those conditions have been satisfied, Ueberroth's office said.

Blue, 35, compiled a 24-8 record with Oakland in 1971, when he was named the The Jacksonville Bulls, seeking.

American League's most valuable player and Cy Young Award winner. In 1978, the Tresh money, will make 49 percent A's traded him to San Francisco. Four years later, he was traded to the Royals, who of their stock available to the public seeking and Cy Young Award winner.

USFL: A Spread-Formation Question Mark

States Football League were an oil company or a television network, the corporate raiders would be lurking, ready to pounce.

Instead of Doug Flutie, the new USFL name would soon be the Bass Brothers or T. Boone Pickens or Capital Cities Communications. Instead, the new name might be Enefel, at least phonetically. Isn't it time for Commissioner Pete Ro-zelle's raiders to move in and absorb a few franchises?

With the USFL in the seventh weekend of its third season, it continues to stagger on its springtime treadmill. Its planned 1986 switch to a fall schedule is still not com-pleted. Attendance and television ratings are down, and its new commissioner, Harry Usher, acknowl-edges that by the end of the season club owners will have "invested" about \$150 million over three seasons without a penny of profit. As proof that the league's most dangerous enemy is itself, consider

these developments: Donald Trump hopes to be partly reimbursed by other club owners for having signed Flutie to an \$8.3 million, five-year contract

with the New Jersey Generals. • The Los Angeles Express remains a team without an owner. In the absence of one, the league office is supervising the operation of give himself the trophy, or what?"

 Marvin Warner resigned as an owner of the Birmingham Stallions following the collapse of his Cin-cinnati thrift institution that trig-gered the Ohio banking crisis; the city of Birmingham is considering

· lic at \$100 a share.

believe Flutie was worth \$8.3 million. All this is a reminder of a lingering question: Why did Trump give Flutie all those mil-lions when no National Football League team (notably the Buffalo Bills with the No. 1 draft choice) had made a bona fide offer to the

looked upon signing Flutie as a show of strength for the entire USFL, which is why he sought contributions from other clubs. Trump's request for "partial reimbursement" has deflated Flutie's value not only to the Generals but also to the USFL's image.

Heisman Trophy winner? The an-

swer is that Trump obviously

Until now, Flutie thought Trump loved him for himself, not for his value to the other club owners as a symbol and attraction. If you take your best girl to the prom to the neighbors. And the devalua-tion of Flutie has surfaced just when the Generals need him most - during the baseball season. In their first two games at Giants Stadium, the Generals drew crowds of 58,741 and 41,079, primarily to see

Flutie — an average of nearly 50,000, by far the USFL's best. Only two other teams, Tampa Bay and Jacksonville, are averaging

more than 40,000 at home. But after Sunday's duel between Flutie and Jim Kelly of the Houston Gamblers, the Generals will be competing against the New York Mets and Yankees for spectators, as well as against the televised National Basketball Association playoffs and the lure of spring weather itself to outdoor sports partici-

pants. With all its problems, the USFL seems to be banking its future on its \$1.32 billion antitrust suit against the National Football

problem against the other. "I'll use record in the big leagues and the the Cobb record to psych my players," he says.

The catcher's job has been a wasteland since Johnny Bench retired. When spring training opened, Rose had four candidates; he apparently has settled on Dann Bilardello, who also opened last season but was sent back to the minors at midseason.

The Reds made no significant deals last winter, but they do have several young players with good labels. The best is Eric Davis, a 22year-old center fielder who hit 10 home runs and drove in 30 runs in only 174 at-bats last summer.

Mario Soto won 18 and lost 7, and reigns as the No. 1 pitcher. He Browning and Jay Tibbs.

may get help from youngsters Tom There's big trouble in San Francisco. The Giants may be sold or team's worst in nearly 40 years. The Giants face their future with a rookie manager, Jim Davenport, and Davenport faces it without

team, who was traded to the Cardinals for four players.
One of them, David Green, opens at first base. Another, Dave LaPoint, opens in the pitching rota-tion. Another, Jose Gonzalez (who has just changed his name to Jose Uribe), apparently will open sharing the shortstop's job with Johnnie

Jack Clark, the best hitter on the

LeMaster. All is not lost. Bob Brenly hit 20 home runs and grew into a force as the catcher. Dan Gladden, who hit .397 at Phoenix, was called up when Clark tore up his knee and then hit .351 at San Francisco. Picther Atlee Hammaker, who made only six starts, returns from surgery on his rotator cuff and elbow. And Vida Blue, who did not pitch anywhere last year, surfaces

College Heads Urge Tough Guidelines

By William Gildea

New York Times Service

WASHINGTON - Presidents and chancellors of the National Collegiate Athletic Association's member institutions expressed deep concern late Friday about financial abuses and the "state of integrity in intercollegiate athletics" and announced proposals in both areas that they plan to introduce at a special NCAA convention in June.

John W. Ryan, chairman of the NCAA Presidents' Commission and president of Indiana University, said the group would urge NCAA guidelines requiring tighter control on athletic department budgets by college heads, stricter enforcement procedures and tougher rules against coaches involved in infractions. The commission's recommendations are based on

the results of a nationwide survey of college officials. The 44-member commission, formed 15 months ago, voiced its alarm coincidentally against the back-drop of a point-shaving scandal in the basketball program at Tulane University. Also by chance, June's pecial convention will be held in New Orleans, where Tulane is located.

The commission proposes that:

 Athletic budgets be controlled by the institutions. be subject to normal budgeting procedures and be approved by the schools' chief executive officers.

• An annual audit of all expenditures for an institu-

tion's athletic programs be conducted by an indepen-

The NCAA's enforcement procedure be revised to

spell out major and secondary rules violations, and to establish specific penalties for violations.

Restrictions be carried over on rules-breaking coaches who might leave one institution for another. In addition, the commission will sponsor resolutions calling for penalties against athletes knowingly involved in NCAA rules violations and for a limit on the number of basketball games a school may play in a

In what Ryan called "apparently the most comprehensive and definitive national survey of presidential views regarding athletics ever taken," 99 percent of the college heads were "concerned about integrity problems in athletics."

Eighty percent noted concern over income-generating demands of major sports, 75 percent feared illegal inducements to prospective athletes, 71 percent feared rules violations by alumni and boosters and 62 percent cited athletes' academic work as a serious problem. Another concern was violations by coaches. Sixty percent of the 791 NCAA college heads responded to

and that the updating and enforcement of rules had to Ryan said he was not familiar with the specifics of

the Tulane case but that the school's "reaction," which includes dropping basketball, is "an attempt by a great university to deal with its problems."

He commended the NCAA's enforcement arm, but said the staff was small and overworked and needed to

LANGUAGE

Making President's Day

By William Safire WASHINGTON — "I have only one thing to say to the tax increasers," said President Reagan, delighting in a mock-tough line submitted by one of his writers.

"Go ahead and make my day."

Mary McGrory, the liberal columnist, responded: "At last a slogan for the second term of Ronald Reagan. It's short, provocative, a shade more genteel than 'Drop dead,' which is what it really

Not quite. In current usage, it Give me the long-sought means opportunity to respond devastatingly," and its route to the current meaning shows the movement of meaning at its quirkiest.

One of the many meanings of the verb make is "to secure the success which can be found in John Lyly's 1579 observation: "It is the eye of the master that fatteth the horse, and the love of the woeman that maketh the man." Shakespeare used it: "This is the night," said lago in "Othello," "that either makes me or fordoes me quite." The dictum of Polonius in "Hamlet," "The apparel oft proclaims the man," was shortened in common use to "clothes make the man"; that sense is transmuted now to "dress for success," but the big achievers still use the colloquial phrase making it, which is far more fun than having it all.

Then, in her 1909 novel "The Rosary," Florence Barclay wrote, "I knew I wanted her; I knew her presence made my day and her absence meant chill night; and every day was radiant, for she was there." That made the day for "made my day." P.G. Wodehouse followed that up in 1935 with "That will be reat. That will just make my day. The Briticism crossed the Atlantic and appeared in the soft rock of Carole King's song "Brighter," published in 1971: "And I can't think of anyone else / Can make 1, 1918: "Sic him Jenny Jinx me feel as good as you. / Yeah, you make him say 'Uncle.' make my day." William Styron told Newsweek in 1979 of his satisfac-the kids' street lingo so effective.

makes my day." The sunniness of this image began to be clouded in the 1970s. "Go on, dare him," said a shady charac-ter in Hugh McLeave's mystery, 'Question of Negligence," in 1970:

"It'll make the evening. The sinister side of day-making

approached its zenith in 1983 in "Sudden Impact," one of the Clint Eastwood Dirty Harry movies. script by Joseph Stinson, its central character a cop who gives short shrift to the civil liberties of the accused, in Mickey Spillane's grand Mike Hammer tradition.

Interrupting a stickup in a diner, Dirty Harry Callahan aims his Smith & Wesson at a thief and challenges him with a snarled "Make my day."

The phrase is becoming the rallying cry of vigilantism, thanks to the Dirty Harry association and the subsequent episode in the New York subway when a passenger shot four youths he says he felt were threatening him.

By using the expression jocularly regarding his reaction to those who would reduce the deficit by increasing taxes, Reagan has deepened the phrase's roots in American colloquial speech. You can imagine what he has done for students of slang.

IN A related development, Reagan was asked in a recent news conference whether he was advocating the overthrow of the govern-ment of Nicaragua. He indicated no, not "if they'd say 'Uncle.' "

"Yes, the pages of the Fourth Supplement of the O.E.D. that include uncle have just come from the printers," Robert Burchfield, editor of the Oxford English Dictionary, said. "The expression is to say, holler or cry "Uncle" — any of those verbs will do — and we define it as 'to acknowledge defeat, to cry for mercy. Very current in America, isn't it?

Very. The recorded origin is relatively recent, according to Mitford Mathews in his Dictionary of Americanisms. Mathews's earliest citation for the expression was The Chicago Herald-Examiner of Oct.

What made the president's use of tion in writing: "If it's only one paragraph, but it's felicitous, that makes my day." and so infuriating, was the double meaning of "Uncle." As both the signal for surrender and the short form of "Uncle Sam," the president gave a special emphasis of knuckling under to the United States. I think the double meaning was not intentional; it was delivered in entirely too offhand a way for that.

7 ASHINGTON — Actress scribing a scene she played off camera with Richard Chamberlain. On camera she plays his secretary in "Wallenberg: A Hero's

"I told him I thought it would be a good idea if a couple of times I might straighten his tie for him," she said.
"You want to straighten my

tie?" she remembered Chamberlain's saying. She furrowed her brow like his and stroked her chira the way he did as he sauntered away to think about it. Then he drifted back and asked

her why she wanted to do it. To show a secretary's concern, she explained, to add a bit of mothering to the scene, to add a subtle action to the dialogue. "I asked him why he was trou-bled by the idea," she said.

"He said, 'No one's ever invaded my hero-space before." From well-received roles such as Dr. Frederick A. Cook in the TV movie "Cook and Peary: The Race to the Pole," to his portray-als of Lord Blackthorne in "Shogun" and Father Ralph de Bricas-

sart in "The Thorn Birds" - two

blockbuster miniseries - Richard Chamberlain has indeed quietly and persistently established himself as a player of heroes. This week, in a two-part film on U.S. TV, Chamberlain takes the role of Raoul Wallenberg, a diplomat who left the comfort

Wallenberg in 1943.

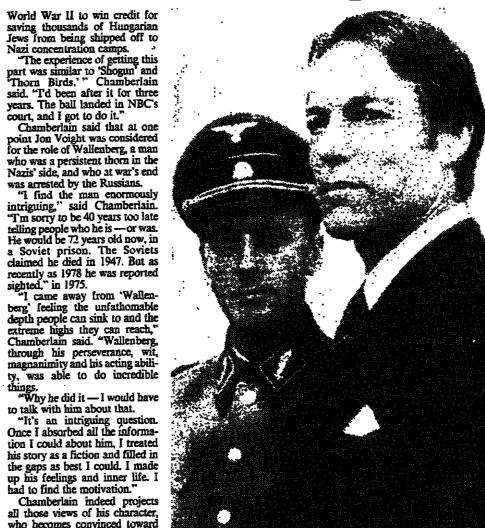

all those views of his character, afforded him as a well-born, miliwho becomes convinced toward tarily neutral Swede during the end that he can single-handedly cow the Nazis. His prime antagonist is Adolf Eichmann, played in an under-

to talk with him about that.

fashion by Kenneth Colley. As the war winds down, and Wallenberg and Eichmann dis-cuss the Nazis' inevitable fate, Eichmann expresses no regret. He has enjoyed money, power and the finest whores in Europe, he tells Wallenberg in the film. "I will go to the gallows with a

stated - and thus memorable -

The Wallenberg story is based on the book "Lost Hero: The Mystery of Raoul Wallenberg," Frederick E. Werbell and Thurston B. Clarke. The script was written by Gerald Green

Chamberlain encounters Eichmann (Kenneth Colley).

("Holocaust"), Dick Berg and Lamont Johnson. Johnson, who carries impres-

sive credentials ("The Execution of Private Slovik," "Fear on Trial"), directed the filming in Zagreb, Yugoslavia. Berg ("A Rumor of War," "The Martian Chamildon") in the martian Chronicles") is the executive pro-

Chamberlain, who has an eye to becoming an executive producer himself, has been in Africa recently, working on a remake of "King Solomon's Mines," in

which he reprises the role Stewart Granger played in the 1950 film. And there's another TV mini-

series in the offing, with Cham-berlain playing John C. Fremont, politician, general and explorer of the American West. One day, Chamberlain joked, he'd like to play a simpler charac-

ter, with no hero-space to worry about "I'd like to play the guy next door," he said, "with a couple of kids and a lot of problems."

PARIS POSTCARD The New Breed of Exiles

By Greg MacArthur The Associated Press

PARIS — The Lost Generation of American literary expatriates, whose brief self-exile in Paris was part adventure and part cultural salvation, has been replaced by another group of important foreign writers for whom exile is a matter

Today's exiles come from the Soviet Union, Eastern Europe, Africa, Latin America and Iran. They are older, mostly in their 50s, and they live and write in Paris because for political reasons they cannot do so at home.

Most did not choose exile but were forced into it by repressive governments. What they share with their exuberant Jazz Age American predecessors is that they chose

"We Romanians have a special relationship with France." Paul Goma, 50, the novelist and human rights activist, said in an interview. "We share a Latin language and we are francophile by tradition. There is something in the air about France for a writer." "Like most South Americans, I

didn't want to settle in Spain," said the Uruguayan poet and journalist Ricardo Paseyro, 56. "We have an anti-colonial prejudice about Spain, which was, of course, fascist until recently. So where do you go? You go to France, to Paris.

The Persian poet Nader Naderdays of the last French giants -Andre Gide, Albert Camus, Sartre. France, for me, has always been my second country," he said.

However, life in exile "has something of a false flavor for Nader-preter. From the point of view of pour. "It isn't real. It doesn't give you that extraordinary sensation of life, of pleasure, of joy, even of sadness," he said.

Although France's culture continues to seduce artists from around the world, life in the City of Light, as some of the current Paris exiles made clear, can be something the slightest vibration from the less than what Ernest Hemingway street," Naderpour said. "In exile, less than what Ernest Hemingway once described as "A Moveable Feast."

"For the Americans who came in writers here now it's no vacation; exile."

it's a trial, and most of us have to

fight to survive."

Maximov, 54, arrived in Paris on
March 1, 1974, after being stripped
of his citizenship. His published
novels in the West include the semi-autobiographical "Farewell From Nowhere" and the critically acclaimed "Seven Days of Cre-

Like South Africa's Breyton Breytenbach, Goma, the Cameroon author and publisher Mongo Beti and others, Maximov served prison terms at home before being forced into exile.

Naderpour left Iran on July 31, 1980, repelled by what he saw as the culturally reactionary aspects of the Islamic Revolution. He chose exile after publishing at home became impossible.

Some of the exiles, including the Czechoslovak novelist Milan Kundera and Brevtenbach, have achieved international acclaim since leaving their native countries. Kundera's latest novel, "The Incredible Lightness of Being," was an international literary event. Breytenbach gained critical acclaim this year for "The True Confessions of an Albino Terrorist."

But some writers, although translated in small anthologies into English, French and Italian, remain largely unknown outside their ,

own countries.

In exile, Naderpour is cut off from his readers and his original source of inspiration. Most of his pour, 55, was a student in Paris in recent poems have been unusually the 1950s. "I was here for the last nostalgic, he said, and he is not sure they will ever be published in Iran.

"A writer in exile can live on his memories only so long, cut off from his readers and his own language," Maximov said, through an intercreativity, I lost everything. Immigration was only a matter of saving myself physically. You feel like a fish, thrown up on the beach by the waves. You just open your mouth and lie there until you die."

"When I was at home in Tehran and I closed all the windows, I could still hear, with my inner ear, if I open the windows wide. I remain deaf. "I hear the noise, but the noise

the 1920s, Paris was a vacation, a does not concern me. There is lark," the Soviet novelist Vladimir something broken between me and Maximov said. "For the Russian the country in which I live. That is
